Elimination of Child Labour

1327. MISS SAROJ KAPARDE: Will the Minister of LABOUR be pleased to state:

(a) the magnitude of the problem of child labour in the country;

(b) the details of measures taken by Government to eliminate child labour;

(c) whether these measures are effective enough to tackle problem of child labour; and

(d) if so, how?

THE MINISTER OF LABOUR (DR. SATYANARAYAN JATIYA): (a) to (d) According to the 1991 census data on child labour, the number of working children in the country is of the order of 11.28 million children. Considering the nature and magnitude of the problem a gradual, progressive and sequential approach has been adopted to rehabilitate child labour.

Government has taken a series of steps to address the problem of child labour in the country. Under the Child Labour (Prohibition & Regulation) Act, 1986 the employment of children is prohibited in 13 occupations and 51 processes listed in the schedule to the Act. The employment condition of children in other occupations and processes is regulated under the Act. State/UT Governments have an enforcement machinery to enforce child labour related provisions of the laws.

Apart from legal measures, Government has taken steps for withdrawal and rehabiliation of child labour working in hazardous occupations through the scheme of National Child Labour Projects. Under the scheme of NCLPs" special schools have been set up with provisions for non-formal education, vocational training, nutrition, stipend, health care etc. So far 76 child labour projects have been sanctioned in the child labour endemic States for coverage of 1.5 lakh children. This issue was also deliberated upon by the Hon'ble Supreme Court. The Court has given several directions, in their judgement dated 10.12.96, including payment of compensation by the employers employing children in hazardous occupations. The government has alreday ta-ken a number of steps to implement these directions.
